

EMW Computer Trading LLC Recognized as a 2024 Partner of the Year by Juniper Networks¹

Dubai, United Arab Emirates — September 01, 2025 — EMW Computer Trading LLC (EMW), a Dubai-based master service provider and award-winning systems integrator, today announced it has been recognized as a 2024 Partner of the Year by Juniper Networks, now part of HPE. This prestigious award celebrates partners who have demonstrated excellence in delivering innovative AI-native networking solutions, driving exceptional customer experiences, and achieving strong business outcomes. EMW was honored in the category of Emerging AI Driven Enterprise for its success in developing modernized data center and automated cloud-based network solutions powered by Juniper’s AI-native technologies.

Juniper’s 2024 Partner of the Year Awards were celebrated as part of the **Juniper Partner Advantage Program (JPA)**, which recognizes partners for their exceptional performance and impact in driving digital transformation for customers. Beyond recognition, the JPA empowers partners to build, sustain, and grow their Juniper practice with the tools and support needed to deliver next-generation, AI-native networking solutions.

“We’re thrilled to honor our 2024 Juniper Partner Award winners for their outstanding achievements and unwavering commitment to innovation. These partners have set the bar high, delivering secure, AI-native networking solutions that are transforming industries and empowering customers worldwide. I congratulate our partners on this well-deserved recognition. We’re proud to stand with you as we shape the future of networking together,” said **Gordon Mackintosh, VP, Worldwide Networking Channel and Partner Ecosystem Networking Sales at HPE.**

“We are honored to be recognized as a 2024 Juniper Networks Partner of the Year. This recognition underscores our commitment to designing and operating AI-native, secure, and automated networks across the Middle East and Africa. Powered by Juniper’s innovation, we help enterprises, service providers and hospitality leaders deliver better user experiences with measurable outcomes—higher reliability, lower operating cost, and faster time-to-value,” said **Serjios Hage, Chairman & CEO, EMW Computer Trading LLC.**
